# Our Vision

WE WERE ALL BORN FROM THE SEA.  
Maybe that's why we're so irresistibly  
attracted to it.

As soon as we're immersed in it,  
once again we turn to breathe, we feel  
we're back to our true natural setting.

In our every effort, every thought,  
every dream, the sea finds its way.  
We yearn to be back in it to better  
observe it, to admire its grandness,  
always with new eyes.

To be back in it, to be astonished by  
it and to share its wonders with our  
friends.

To be back in it to imbue new life to  
the very place that's been witness  
to the birth of it all.

# THE FULL FACE MASK EXPERIENCE

## ALL OCEAN REEF FULL FACE SNORKELING MASK:

Air circulation system is patented. You always breathe Fresh air.

Independently tested to ensure safety and comfort. No "unsafe" CO2 build up.

Made in Italy

Full line: 4 models, up to 4 sizes, color combinations and range of accessories like no other.

OCEAN REEF was the first to design a FFSM and has brought it's 25 year knowledge in the scuba Full Face mask industry, to the table, when engineering all it's products.

## WHY SNORKEL WITH ARIA?

### SNORKEL & BREATHE LIKE MOTHER NATURE TAUGHT US

Goodbye jaw discomfort, goodbye difficult breathing and goodbye water in your snorkel. For good.

With Aria you breathe through your nose, while the dry top prevents water from getting in the snorkel.

Now your mouth is free to say: WOW!

### NO MORE FOGGING PROBLEMS

Goodbye defoggers, hassles and lost opportunities to see the fish of a lifetime. Aria's breathing circulation inside the mask's frame guarantees no fogging and no extra stress. Just take it out and jump in.

### AUGMENTS YOUR FIELD OF VISION, THE MOST!

Aria has the largest field of vision of any mask out there.

## snorkie-talkie™

- Range : 500ft (150mt) any direction (does not work underwater)
- Complies with different countries rules (FSR for USA, PMR446 for EU).
- 4 different channels for separate conversations.
- Any number of Snorkie – Talkie can communicate with each other, on the same channel.
- Rated IP68 (waterproof 3m/10ft).
- battery level indication.
- 8hrs operating time.
- 1200hrs stand by battery life.
- Adjustable volume.

Snorkie-Talkie is compatible with other standard radios (on the same Frequency).

## OUR STORY, OUR ADVENTURE

6 years ago Sergio Gamberini was enjoying his summer vacation in Noli, Italy.

Scuba diving has always been not only a business related activity, but a passion and a hobby deeply rooted inside him. Everything related to life in the ocean always has had a special place in his heart. His life could be described as constant hard working, Family and the ocean.

Having said that, you can easily understand that nobody was surprised when he came up with yet another idea to work at while on vacation.

But this time the idea sounded really, really strange...

So, there he goes, he makes a couple of phone calls and starts building, with the help of his team at Ocean Reef Group, a number of small transparent balloons – then, they sink them and fill them with air while underwater, they anchor them and ultimately, plant seeds in a vase inside!

The idea he had was to utilize the properties of the large bodies of water – constant temperature, united with the natural evaporation of a surface of liquid in contact with an air space – to try creating an underwater greenhouse!

Years of experimentation down the road, a number of biospheres created, basil crops, rough seas that destroyed everything, live web streaming from underwater, studies, data collecting, we now move the experiment's site to the next level: more biospheres, more designs, more sensors, more cabling, hydroponic culture, more webcams etc.

Find out more at [www.nemosgarden.com](http://www.nemosgarden.com)

Ocean Reef Group  
years

## ORIGINS OF SCUBA DIVING

The **Gamberini Family**, at that time, owned a small tire repair shop in the heart of Genova. Like many stories of success, hard work is supported by **passion**.

It is passion that drove Giorgio and Ruggero Gamberini. Passion that animated their experiments with rubber that ended up attracting the attention of a mythical person at the time:

**Commander Ferraro** – The Professor – who's story would deserve a book on it's own thanks to his military scuba endeavours during the war: He became one of very few, living, recipients of the Military Gold Medal – highest recognition of the Italian Navy.

Ferraro was in the middle of designing **his first rubber masks and fins** for scuba diving and swimming when he reached out to the Gamberini brothers because of their expertise with this new material. Shortly after, the two brothers (with the addition of the third brother – Gianni), were contacted by Egidio and Nanni Cressi, as they, too, were caught up in designing their first products to **open up the underwater world to the masses**.

From these first steps the Cressi brothers founded modern Cressi-Sub and Ferraro **founded Technisub**. These successful partnerships attracted a third famous personality: a young, Istrian refugee called Ludovico Mares, with whom, the Gamberini brothers would go on to found Mares.

Brands that not only have made the history of scuba diving – **they generated the scuba industry**. The collaboration with these innovators is one of the reasons why the Gamberini's have specialized in OEM production for rubber products for so long.

## A LUCKY MISTAKE

History of mankind is full of lucky findings and discoveries, one of the most famous ones is Alfred Nobel's discovery of dynamite.

A much less gruesome story is that of how the Gamberini brothers ended up creating a **wrong rubber mix**, in the late 1950s, **creating the first ever floating rubber**.

Gianni Gamberini, disappointed and annoyed with the result of his experiment, threw a test mix to cool off in a water recipient. To his awe, the rubber piece, went right back to the surface and floated. Shortly after, the first floating fins were on the market. The first one to intelligently exploit this discovery was business-keen Cressi, who had great success with this line of products.

## TALKING ABOUT DIVERSIFYING AND FLEXIBILITY

Since then the Gamberini family has always been working with rubber, plastics and its derivatives, mastering this category of raw material and continually finding **new potential uses and markets**.

After the three brothers, came Giorgio's sons: Guido and Sergio, whom, 30 years later found themselves producing Binda's historical intuition. Binda – the famous co-owner of famous luxury watch brands. Guido and Sergio produced **the first rubber straps for watches**, characterized by bright colors and bold patterns, never before imagined – the HIP-HOP watch was born... then the first Swatches.

The watch expertise continued with important clients such as Hublot and Bulgari, with the key addition of Sergio's son Massimo. Meanwhile, other business opportunities arised. **A big market was found in medical and work safety products**. Famous products for NBC military and civil use were created.

## BACK TO THE WATER

Sergio's personal passion for water and the ocean, combined with the family's rubber and plastic manufacturing DNA, along with his studies as a chemical engineer, created the ingredients from which the modern history – **OCEAN REEF brand** – was born.

In 1993, Sergio orchestrated **the purchase of an American scuba manufacturing company** based in San Diego – Ocean Edge.

Sergio's intuition was to create a cross over from their gas mask design and expertise, back into the scuba industry, **his first Full Face Mask for diving**: a technical and innovative product that would guarantee a more comfortable, safe and relaxing uw experience.

From Reef-Marine and Ocean Edge, OCEAN REEF was incorporated. Since **the Full Face mask had the advantage of a free mouth** – the subsequent step was to develop the underwater communication market. OCEAN REEF is now one of the **leaders in this market**.

## FROM THE DEPTHS TO THE SURFACE

Recent history of the group has been made by **another outstanding partnership**: with Sport Distribution leader and goliath, Decathlon.

With an excellent team work, a long and complex project was concluded with the birth of **the first ever Full Face mask for Snorkeling use (FFSM)**. The famous and inexpensive **Easybreath** was born from this synergy. The success of this product literally revolutionized the snorkeling market – and is still shaking it – , years later.

After a long while, OCEAN REEF decided to design and patent a different level product in the same category, named **Aria**, it's own FFSM – with a **distinctive attention for quality, safety and design**. A true Made in Italy product. The position of worldwide FFSM leader was then solidified with other big partnerships.

## UNDERWATER GARDENING

In the meantime, another revolutionary idea "surfaced". Italians, as we know, love talking about food.

In 2012, Sergio was on vacation in his beloved Noli, a beautiful medieval town, just 60km from Genova, when, talking with a friend, the idea to **grow plants underwater** started to shape in his mind. This began an amazing project for **underwater greenhouses** and is still dropping jaws across the world today.

Nowadays the OCEAN REEF brand is committed to make the underwater world more favorable to mankind, by making it's experiences easier. Our soul rests upon our American and Italian heritage.

**This has always been our attitude.**

**This is what we believe in.**

**This is why our feet are well grounded and our mind is constantly Underwater, Naturally.**
